COMMUNICATION UNDER 37 C.F.R. § 1.28(c)

On June 10, 2002, the attorneys for the Assignee (Alexion Pharmaceuticals, Inc.) of the above-identified patent submitted several papers to the U.S. PTO. These papers consisted of 1) a fee request noting that a small entity fee was inadvertently paid upon payment of the issuance fee, the request asking that the difference between a large entity issue fee and small entity issue fee be deposited to deposit account 01-0483, and further noting loss of entitlement to small entity status; 2) appointment of associate attorney; and 3) a request for Certificate of Correction. Copies of each of the above items (not including the Certificate of Correction itself) are enclosed together with the Certificate of Mailing and a postcard from the PTO acknowledging receipt of the Certificate of Correction.

It is now time to pay the first maintenance fee for the above-identified patent and it is noted that the PTO records (as shown on the PTO website) indicate that small entity status still applies to this patent. This is incorrect in view of the submission made June 10, 2002 noting loss of entitlement to small entity status. It is hereby requested that the status for this patent be corrected to large entity. It is further requested that if the request filed June 10, 2002 to pay the additional required fee of \$620.00 was not processed that such fees and any additional required fees now be paid with all required fees being charged to Deposit Account No. 01-0483.

Any inquiries concerning this matter should be directed to the undersigned.

Respectfully submitted,

The payment of the small entity fee was inadvertent. It is requested that \$620.00, the difference between the payment of the issue fee as a small entity issue fee and the large entity fee which should have been paid, be charged to Deposit Account No. 01-0483.

This communication and payment of fees additionally serve as notification, in accordance with 37 C.F.R. 1.28(d), of a loss of entitlement to small status as required by 37 C.F.R. 1.27(g)(2).
